### **Head of School Search: Candidate Review Phase**

As our Head of School search moves into its final stages, we anticipate a very busy and exciting period ahead as outstanding finalist candidates and their spouses visit campus over the next several weeks. Each candidate visit will span two full days and will include opportunities to interact with a wide range of stakeholders, including members of the Board and administrative team as well as representatives from the faculty, staff, parent, and student bodies. We look forward to sharing Whitby's characteristic hospitality with the candidates.

We remain grateful for the tremendous time and thought the members of the Search Committee are dedicating to this process, and we are grateful for the participation of many community members in the upcoming finalist visits. We anticipate sharing another search update later this fall.
